

Trades Coordinator

I am setup is a new position called “Trades Coordinator” or “Chapter Tradesmen” for our Chapter. What I am envisioning, is a leader overseeing the different trades our Chapter has to offer.

What that would entail is determined each members trade and help them promote their trade when they come to a FCF event or District events

The Trades Coordinator or Chapter Tradesmen would then contact each member and work with that person in developing their trade and promoting their trade at FCF events. The Chapter Tradesmen will encourage our membership to make items for trade, for both boys and adults. A chapter member can also have some premium items that they may wish to sell.

A quarterly newsletter will be sent out to help encourage members to keep up and develop their trade. We can also feature chapter members, show their work and giving a bio.

I also envision, we could have a silent auction, which funds will go to missions.

Once the information is collected and categorized, it can be added to the LARR.ORG web site.

Chapter members can also display some of their items on the LARR.ORG web site.
